

Recycling machines manufacturing by General Plastics Europe

General Plastics is your specialist in production of machines and solutions for transforming plastic waste into best quality raw material. We design and manufacture plastic recycling plants for almost all thermoplastic recycling applications. Output: 10 – 1000 kg/hr. Different types of recycling for different materials and different applications.

Our ECO air cooling system saves 30% energy. Now a much lower price. Check it.

 <p>Rec. Sample</p>	 <p>GR-C35</p>	 <p>GR-A40/45</p>	 <p>GR-C35/40</p>	 <p>GR-A45</p>	 <p>GR-A50-Film</p>
 <p>GR-C40/50</p>	 <p>GR-A45</p>	 <p>For Edge or regrind material</p>	 <p>GR-A60</p>	 <p>GR-A65</p>	
 <p>For regrind material</p>	 <p>GR-A65</p>	 <p>GR-A65lov</p>	 <p>GR-C120</p>		
 <p>Recycling with degassing GR-A85D</p>	 <p>GR-A100</p>	 <p>GR-A140</p>	 <p>GR-A85</p>		
 <p>GR-100/1000 with Conveyor</p>					
 <p>UNIVERSAL-recycling system</p>	 <p>Continuous Screen Changers and Melt Filters</p>		 <p>GR-A150 Water cooling and degassing</p>		
 <p>For Film Edge</p>	 <p>Film/sheet grinder and feeding system</p>	 <p>For film Edge</p>	 <p>Pump for degassing</p>	 <p>Water cooling</p>	

General Plastics recycling machines are:

Most advanced technology and innovation
High-performance and flexible plastics recycling
Energy-efficient systems

Recycling Machines Applications:

Please mark the polymer for which you need the recycling machine

☼ - ABS; ☼ - EVA; ☼ - PA; ☼ - PC

☼ - PE film; ☼ - PE other; ☼ - PE multilayer film; ☼ - PE multilayer other

☼ - PP film; ☼ - PP other; ☼ - PP multilayer film; ☼ - PP multilayer other; ☼ - BOPP

☼ - PLA; ☼ - PS; ☼ - PVC; ☼ - PET

☼ - waste clean; ☼ - dirty waste/ Please specify the dirty and degree of dirty

☼ - Please specify the expected productivity of the machine ☼X – please Mark X
